Objective:

A dedicated **Flutter developer** with experience in **Android/ IOS, Web and Desktop development.** Actively looking for a position where I can use my experience with **Flutter**, and **Javascript** to combine on-site and remote work. I recently completed an internship where I learned a lot about managing teams in the hectic field of Flutter application development. I guided the rollout of intricate features through the use of **GetX**, **Hive**, and **API integrations**. This experience resulted in the successful publication of apps on both the **Google Play Store** and **App Store,** reflecting not just professional milestones but a passion for crafting innovative solutions.

Beyond technical prowess, I bring innovative problem-solving, seamless collaboration with cross-functional teams, and a commitment to user-centric design. Continuous learning keeps me updated, and excellent communication ensures efficient collaboration. Eager to contribute to innovative projects with a focus on excellence.
